## Profile

iOS Developer with 3 years of experience in building and supporting mobile apps using Swift. Proficient in the full development cycle, from concept and design to development and ongoing maintenance. Experienced with UIKit and SwiftUI, quickly adapts to and understands existing codebases, enabling rapid problem-solving and continuous improvement of applications. Strong grasp of Git, OOP, and SOLID principles, with experience in both MVC and MVVM architecture patterns. I actively advance my skills through technical books and practical projects, while consistently improving my English proficiency.

## Education

2010 Malyn Forestry College  
— Logging and primary wood  
2014 processing

## Courses

2021 iOS App Development Bootcamp
